

ROSEY World

A Commonwealth of the Finest Swiss Schools

ROSEY World

Rosey World is a community of three highly reputable and independent Swiss boarding schools that share the same vision of education in a multi-cultural environment.

Their school communities are based on international recruitment guaranteed by quotas, respect for differences, formative codes of conduct, high academic standards and personalised teaching. An open-door policy nurtures enriching exchanges between students and teachers.

They work together on academic and artistic projects, compete against each other in sporting and intellectual tournaments, and travel together on transformative trips.

Admissions Departments work hand-in-hand to offer families the possibility of simultaneously applying to three different schools while following only one procedure. They are represented around the world by Admissions Directors and a Rosey World Ambassador who would advise on the most suitable school.
